

Pledge to Prevent Resin Pellet Loss

Following the entry into force of the Regulation (EU) 2025/2365 of the European Parliament and of the Council of 12 November 2025 on preventing plastic pellet losses to reduce microplastic pollution, sign-ups to the Operation Clean Sweep Pledge in Europe were discontinued in August 2026. This repository lists all OCS Pledge signatories by region and is up to date as of 31 July 2026. The list will no longer be updated following the discontinuation of sign-ups, but it will remain available on this website until January 2028.

Use the index below to search the repository by region or ctrl + F to search for a specific company name. In case of any issues, please contact us at hello@opcleansweep.eu.
